

NATIONAL LINE CARD

Calduit™

CCP's Steel Conduit and Conduit Products

Our UL listed (# E226472) hot dipped Galvanized Rigid Conduit is manufactured to combine corrosion resistance, protection from physical damage and ductility to insure easy bending and threading. Calduit™ Rigid Conduit is produced in standard lengths of 10 feet including coupling and color-coded thread protector.

Our Calduit™ brand of UL listed hot dip galvanized rigid nipples, elbows, sweeps and couplings enables us to supply your customers with a one-stop-shop for your conduit and fitting requirements.

Calbond™ PPA - Coated Conduit Products, "The Clear Alternative"

UL
TESTED

Our EXCLUSIVE thermoplastic coating is environmentally friendly, containing no VOCs, plasticisers, isocyanate, halogens and or heavy metals and provides superior protection from corrosion from UV, extreme temperatures, and a broad range of caustic industrial products and processes. Calbond™ PPA is UL tested for smoke and flammability (Certification by UL to ANSI/INSF61), and approved for contact with **food and drinking water** (NFPA 258).

Calbond™ PPA galvanized rigid conduit and galvanized fittings are clear coated so any leakage of corrosive liquid in the conduit system is easily visible.

Calbond™ PPA Coated products are manufactured in conduit, nipples, elbows, couplings & sweeps

Calbond™ PVC - Coated Fittings

Calbond™ 40 mil PVC Coated Rigid, Elbows, Nipples, Couplings & Sweeps are manufactured in our UL listed facilities
